

Fermilab's Environmental Management System (EMS) Highlights

- ✓ *Integrate* environmental considerations into everything you do.
- ✓ *Employ* sound pollution prevention and waste reduction practices.
- ✓ *Employ* products that contain recycled materials, prevent pollution, are safe, energy-efficient, and protective of the environment, and can be reused, recycled or disposed of safely.
- ✓ *Incorporate* the philosophy of sustainability in all our activities.
- ✓ *Avoid* harm to cultural resources, protected species, natural habitats and ecologically sensitive areas.
- ✓ *Minimize* our emissions and effluents
- ✓ *Continually* improving our programs for protecting our environment.
- ✓ *Demonstrate* to the public the means to minimize or avoid environmental impacts.
- ✓ *Educate* experimenters and employees at all levels to appreciate and protect our environmental resources.
