## Connecting to CERN Vidyo conferences from Fermilab

### From a room videoconference system -

- With the Polycom remote click the “Home” button.
- Select “Vidyogw1” or “Vidyo-Internet2” from the directory.

After a few moments you should see this screen:

- You can enter your meeting room ID with the remote once you get the on-screen dialpad.

**You must first press the pound key “#” to get the touch-tone dialpad on screen.**

- Now enter the meeting room ID followed by the pound key “#” and you will be connected to your meeting.

## Connecting to Vidyo Meeting via Indico -

Many meetings are entered in Indico, the CERN agenda server.  
If the meeting is listed in Indico you can connect to it using "Room" name, "Extension" number or simply clicking the URL on the agenda page. An example is shown here.
