

# Polycom VSX Connecting Procedures

Press the green Call-Hang Up button on the remote. You will see this screen. Using left arrow key on the remote backspace to remove existing numbers or IP address.

\*Select Mode:  
IP H.323  
ISDN H.320  
Analog (phone)

Using the keypad enter the number or IP address.

If video make sure the call quality is set to 384.

\* NOTE: where applicable.  
Not all room video systems support ISDN or phone
